Department of Economics

Action Taken Report (ATR) for Slow-Learners

Introduction

This report is a presentation of the actions taken to assist the slow learners in the Department of Economics. The aim of this report is to enhance their educational demonstration and holistic learning experience.

Action Taken

1. **Identification of the slow learning students:** Those students who were slow in learning were identified for regular evaluation.
2. **Additional class:** Complementary classes and additional tutorials were arranged and conducted.
3. **Educational Resources:** Some additional resources as previous year question papers, online tutorials & classes, study materials, refreshers and guides were also provided to the slow learners.
4. **Counseling Services:** Counseling was carried out for the challenged faced by the students specially to cope up with personal or emotional challenges.
5. **Regular Monitoring:** Proper monitoring was carried out with respect to student progress and assistance was provided according to the needs.
6. **Assistance from the faculty:** Regular initiatives were taken by all faculty members of the department from time to time to reform the teaching methods and need based requirements of slow learners.

Outcomes and Impact

It was observed among the slow learners that they participated well and showed improvement in their learning skills. Slow learners showed better ways of accepting and learning. A better self-confidence and self-respect was also observed among these students. Additional support helped reduced anxiety and stress related to learning Economics.

Conclusion/Future Plans

Slow learning students were benefited with additional efforts from the department so that better educational demonstration shall be observed. The main objective of the additional classes and focus is required for the slow learners so that they may develop holistically. As Economics department lays emphasis on how an individual can contribute to the society, it was observed that students learn things sincerely on the above mentioned applied aspect. In addition, slow learner shall be able to develop his/her personality and contribute well to the society by social reforms. This report exhibits the added efforts provided to the slow learners so that they may not only be benefited with the subject but they shall have better morals, ethics and discipline. The above agenda and methods shall be continued with better interventions in future.
