Report on Action Taken for Slow Learners

This report is a presentation of the actions taken to assist the slow learners in the Department of Psychology. The aim of this report is to enhance their educational demonstration and holistic learning experience.

Action Taken

1. Identification of the slow learning students were identified through regular evaluation with interaction and class performance.
2. Complementary classes and additional tutorials were arranged and conducted.
3. Additional Study Materials such as previous year question papers, online tutorials & classes, study materials etc. were also provided to the slow learners.
4. Counseling session was carried out for the challenged faced by the students especially to cope up with personal ,educational and emotional challenges.
5. Proper monitoring was carried out with respect to student progress and assistance was provided according to the needs.

Outcomes

It was observed among the slow learners that they participated well and showed improvement in their learning skills. Slow learners showed better ways of accepting and learning. A better self-confidence and self-respect was also observed among these students. Slow learning students were benefitted with additional efforts from the department so that better educational demonstration shall be observed.

Report on Action Taken for Advance Learners

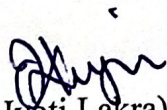

This report is a presentation of the actions taken to identify the advance learners in the Department of Psychology. The aim of this report is to enhance their educational demonstration and holistic learning experience.

Action Taken

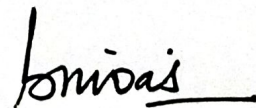

- 1- Advance learners were identified through regular evaluation and educational demonstration.
- 2- The main objective of conduction of seminars, peer teaching and role play is to enhance the personality development among the advanced learners. Topics from applied subject matter and current affairs of societal changes from the subject matter were identified among the students.
- 3- Group Discussions is one of the best means for enhancing knowledge. Students were divided into groups and were provided with topics to discuss among their groups. It will help to develop critical thinking among students.
- 4- Research works promoted with applied Psychology were provided to the advanced learners.
- 5- Internship in Psychological Assessment will increase behavior analysis.

Outcomes

Better educational reformations and enhanced societal network, among the students observed. Better opportunities with respect to jobs and startups for good career and Personality.
